

ESG Strategic Integration and Disclosure Analysis of Major Cineplex Group Public Company Limited

Comprehensive Identification and Corporate Profile of Major Cineplex Group

The corporate entity identified by the stock ticker MAJOR.BK is Major Cineplex Group Public Company Limited, a dominant force in Thailand's media and publishing sector.¹ Legally established in December 1995 and listed on the Stock Exchange of Thailand (SET) on May 23, 2002, the company has evolved from a single-site cinema operator into a diversified lifestyle entertainment conglomerate.¹ Its primary business activities are centralized around a comprehensive entertainment ecosystem that includes cinema operations, bowling, karaoke, and ice skating services, supplemented by retail space rentals, advertising media services, and film distribution through its content production arms.¹

Major Cineplex Group maintains its global headquarters in Bangkok, Thailand, and is classified within the Services sector and the Media & Publishing industry group according to the SET.² The company is a constituent of several prestigious indices, including the sSET, SETCLMV, and the SETESG index, the latter reflecting its high standard of environmental, social, and governance integration.² With a market capitalization often exceeding 11 billion Thai Baht, Major Cineplex commands a theatrical market share of over 70 percent in Thailand.⁵ This identification is validated across primary financial portals, including the Stock Exchange of Thailand, Reuters, and Bloomberg, which track the company's regional expansion into neighboring CLMV countries such as Cambodia, Laos, and Vietnam.¹

The organizational structure is characterized by vertical integration, where the company not only exhibits content but also produces it through subsidiaries like M Studio and joint ventures like Tai Major.⁷ This strategic positioning allows Major Cineplex to manage the entire entertainment value chain, from content creation to the consumer experience in high-traffic retail complexes.¹ The company's long-standing leadership under Chairman Vicha Poolvaraluk has steered the organization toward a "Triple Bottom Line" philosophy, balancing economic profit with social equity and environmental stewardship.⁷

Decadal Timeline Analysis of ESG Disclosures and Developments (2014–2023)

The period between 2014 and 2023 represents a transformative era for Major Cineplex Group

as it shifted from localized Corporate Social Responsibility (CSR) to a globally aligned Environmental, Social, and Governance (ESG) framework. This transition was driven by both internal strategic vision and the evolving regulatory landscape of the Thai capital market.¹⁰

The Early Phase of CSR Philanthropy (2014–2016)

During the early part of the decade, Major Cineplex's approach to sustainability was primarily philanthropic and centered on the Major Care Foundation.¹⁰ In 2014 and 2015, sustainability disclosures were embedded within the general CSR sections of the integrated annual reports.¹ These disclosures focused on the "Opening the Wide World, Creating Smiles" program, which provided cinema experiences to underprivileged children and the elderly.¹⁰ During this period, the company adhered to basic legal requirements for environmental compliance, focusing on sanitation and safety within its theater branches.¹¹ The reports were audited by PricewaterhouseCoopers ABAS, ensuring financial integrity, although non-financial data was largely qualitative and lacked a formal reporting framework like GRI.⁹

Formalization and Policy Integration (2017–2018)

In 2017 and 2018, Major Cineplex Group began formalizing its ESG policies to meet higher governance standards. The 2018 Annual Report included a dedicated CSR chapter (Page 58) that detailed environmental, human rights, and anti-corruption policies.¹⁰ Key developments included the establishment of a formal Human Rights Policy and an Anti-Corruption Policy, which assigned the Audit Committee the responsibility of monitoring corruption risks.¹⁰ By 2018, the company had expanded its cinema network to 782 screens, necessitating more robust operational risk management protocols.¹⁵ The 2018 report identified the audit team from PwC, including Mr. Kajornkiet Aroonpirodjanakul and Mr. Boonlert Kamolchanokkul, marking a period of heightened transparency in corporate oversight.¹⁰

The Shift to Standalone Sustainability Reporting (2019)

A watershed moment occurred in 2019 with the publication of Major Cineplex's first standalone Sustainable Development (SD) Report.¹ This move marked the adoption of the Global Reporting Initiative (GRI) Standards, specifically GRI 102: General Disclosures 2016.¹⁷ The report introduced a structured GRI Content Index, covering organizational profiles, ethics, and material topics such as climate change and supply chain management.¹⁷ The 2019 reporting cycle also saw the company aligning its operations with the United Nations Sustainable Development Goals (SDGs), prioritizing goals related to gender equality (SDG 5) and decent work (SDG 8).¹⁷

Crisis Management and Digital ESG Transformation (2020–2021)

The COVID-19 pandemic in 2020 forced a strategic pivot, characterized by the "3T strategy" (Trading, Thai Movie, Technology).¹¹ Major Cineplex integrated hygiene and safety as central

ESG themes, implementing advanced surveillance and disinfection protocols to protect stakeholders.¹¹ Despite the crisis, the company was selected for the Thailand Sustainability Investment (THSI) list for the first time in 2020, recognizing its commitment to sustainable growth during uncertainty.¹¹ In 2021, the company achieved certification from the Thai Private Sector Collective Action Against Corruption (CAC) and began its "Green Cinema" renewable energy project by installing solar rooftops at standalone locations.¹⁰

Maturity and Global Recognition (2022–2023)

By 2022 and 2023, Major Cineplex Group's ESG maturity was reflected in its external ratings and sophisticated environmental projects. In 2022, it maintained its THSI status for the third consecutive year and achieved an "Excellent" 5-star rating in the Corporate Governance Report (CGR).¹⁰ The 2023 cycle introduced the "I am Reborn" circular economy project, upcycling movie screens into fashion items, and the transition to 5G-based digital film delivery to reduce logistics emissions.¹³ Critically, in 2023, the company received an "AA" rating from MSCI ESG Research, placing it among global leaders in the media industry.⁷

Year	Milestone	Source	Relevance
2014	CSR focus on Major Care Foundation	Annual Report 2014 ¹⁰	Established early social philanthropy.
2018	Formal Anti-Corruption & Human Rights Policies	Annual Report 2018 ¹⁰	Integrated governance into policy.
2019	First Standalone SD Report; GRI Adoption	SD Report 2019 ¹⁶	Shift to international transparency.
2020	Inclusion in Thailand Sustainability Investment (THSI)	SET Factsheet ¹¹	Recognized as a sustainable stock.
2021	CAC Certification; Solar Rooftop Launch	SET Announcement ¹²	Strengthened ethics and renewables.

2022	SET ESG Rating of AA; THSI (3rd Year)	SET Facts ⁷	Consistent high-tier regional performance.
2023	MSCI ESG Rating AA; "I am Reborn" Project	MSCI/IR Report ⁷	Attained global leader benchmark.

Environmental Pillar: The "Green Cinema" Strategic Framework

The environmental strategy of Major Cineplex Group is defined by its "Green Cinema, Earth-friendly Theatre" initiative, which treats environmental stewardship as a driver of operational efficiency rather than a mere compliance cost.⁶ The company's environmental impacts are concentrated in energy consumption (cinema projection and air conditioning) and waste generation (concessions and film exhibition equipment).¹⁰

Renewable Energy and Carbon Mitigation

To address climate change (SDG 13), Major Cineplex has aggressively pursued energy diversification. The company's standalone theater branches, such as Ratchayothin, are particularly suited for decentralized energy production.¹⁰ By 2021, the company began installing solar rooftops at these locations, with a long-term goal of powering all five standalone branches with solar energy.¹⁰ Furthermore, the transition from traditional digital projectors to over 230 laser projector systems has significantly reduced electricity consumption and the associated carbon footprint of movie screenings.¹³

Digital Transformation of Logistics

A sophisticated second-order insight involves the company's collaboration with Kantana Post Production to revolutionize film delivery. Historically, Digital Cinema Packages (DCP) were physically transported on hard drives via road and air to hundreds of theater locations.¹³ By utilizing high-speed 5G internet for online DCP delivery, Major Cineplex has minimized fuel consumption and logistics-related CO2 emissions.¹³ This shift highlights a "double win" where technological disruption serves both business agility and environmental sustainability.¹³

Circular Economy and Waste Innovation

Major Cineplex's waste management strategy adheres to the circular economy principles of SDG 12 (Responsible Consumption and Production).¹⁰ The "I am Reborn from Major Cineplex Screen" project is a premier example of value-chain innovation, where decommissioned theater screens—which are difficult to recycle through conventional means—are upcycled into lifestyle

bags.⁶ In 2023, the company collaborated with the fashion brand Pronto for "Version 2" of this project, targeting environmentally conscious fashion enthusiasts.¹³ Additionally, the company has eliminated paper waste through a 100% e-ticketing system and produces staff uniforms from recycled plastic bottles, diverting approximately 60,000 bottles from landfills for the initial 5,000 uniforms produced.¹³

Environmental Metric	Activity / Program	Reported Impact
Carbon Footprint	Scope 1 and 2 Disclosure	GRI 305 Standard Compliance ¹⁷
Energy Efficiency	Laser Projector Adoption	>230 units reducing CO2 emissions ¹³
Renewable Energy	Solar Rooftop Installation	2 branches active (2021); expanding ¹⁰
Waste Management	"I am Reborn" Upcycling	Waste screens repurposed into fashion ⁶
Sustainable Materials	Recycled Bottle Uniforms	12 bottles per shirt; 60,000 total bottles ¹³
Paper Reduction	100% E-Ticketing	Significant reduction in paper consumption ¹³

Social Pillar: Human Capital and Community Engagement

Major Cineplex Group views its social impact through the lens of inequality reduction and stakeholder empowerment, aligning with SDG 5 and SDG 8.¹⁰ The social pillar is bifurcated into community-facing philanthropy and internal human capital development.¹⁰

The Major Care Foundation: A Decade of Impact

For over 10 years, the Major Care Foundation has served as the company's primary social vehicle.¹³ In 2022, the company invested over 2.6 million Baht in foundation activities.¹⁰ The "Movie Room for Learning" project is particularly significant for remote education, having delivered 58 learning centers across 58 provinces to provide underprivileged youth with access to educational documentaries and films.¹⁰ The foundation also addresses urgent social needs, such as flood relief, by distributing survival bags to communities in Ubon Ratchathani and

Ayutthaya.¹⁰

Internal Diversity and Inclusive Employment

Internally, Major Cineplex has set a benchmark for inclusive hiring in the Thai entertainment industry. The company actively employs individuals with physical or intellectual disabilities, providing them with stable career paths in theater operations.¹⁰ This commitment to diversity is mirrored in the company's scholarship programs, which awarded 20 scholarships in 2022 to children of employees and underprivileged youth, bringing the total to 140 scholarships awarded to date.¹⁰ Such initiatives are vital for maintaining labor relations, a field where the company has won consistent awards from the Ministry of Labour (2019–2021).¹⁹

Data Privacy and Customer Welfare

In the social dimension of governance, Major Cineplex has prioritized the implementation of the Personal Data Protection Act (PDPA) B.E. 2562.²² The company established a dedicated working group to ensure that the data rights of its millions of customers are protected, specifically in its digital ticketing and loyalty platforms.²² This focus on data ethics is a critical response to the "Digital Disruption" era, where cyber risks are identified as a top operational priority.²²

Social Initiative	Target Group	Outcomes / Stats
Opening the Wide World	Underprivileged youth/elderly	>276k children; >48k elderly served ¹⁰
Movie Room for Learning	Remote Schools	58 rooms in 58 provinces completed ¹⁰
Inclusive Hiring	Disabled Individuals	Active positions across various branches ¹³
Scholarships	Students	140 scholarships awarded to date ¹⁰
Blood Donation	Thai Red Cross	Quarterly events at Ratchayothin ¹⁰
Staff Welfare	Employees	Best Companies to Work for in Asia 2023 ²⁰

Governance, Ethics, and Risk Management Framework

Corporate governance at Major Cineplex is framed around the "Rule of Success" culture, emphasizing fairness, transparency, and accountability.⁶ The governance structure ensures that ESG risks are managed at the highest levels of leadership.⁷

Integrity and Anti-Corruption Certification

The company’s commitment to integrity is evidenced by its first-tier certification from the Thai Private Sector Collective Action Against Corruption (CAC).² This certification signifies that Major Cineplex has implemented robust internal control systems to prevent bribery and fraud.⁹ For the 2022 and 2023 cycles, the company received a 5-star "Excellent" rating from the Thai Institute of Directors (IOD), placing it in the top echelon of listed companies in Thailand for disclosure and board effectiveness.⁷

Risk Management and Cyber Resilience

The Risk Management Committee monitors strategic, operational, financial, compliance, and IT risks.²² A nuanced strategic risk identified in 2024 is the volatility of Hollywood content, which the company mitigates by fostering the "Tollywood" project to increase the market share of Thai films to 50%.⁷ In the IT realm, the company has formulated a "Cyber Resilience Assessment Framework" to defend against the rising threat of cyber-attacks and ensure business continuity.²² The Audit Committee, comprising independent directors, provides an additional layer of oversight, specifically reviewing related-party transactions and the accuracy of the 2023 financial reports.⁹

Board Oversight of Sustainability

The Governance and Sustainability Committee was established to drive the company’s ESG performance.⁷ This committee ensures that ESG considerations are integrated into executive decision-making and that the company’s sustainability reporting aligns with both SET requirements and international benchmarks like the MSCI.⁷

Governance Metric	Status / Achievement	Relevance to Transparency
CGR Score	5-Star "Excellent" (2021-2023)	High standard of board oversight. ⁷
CAC Certification	Certified (2021-2024)	Verification of anti-bribery controls. ¹²

Risk Monitoring	Cyber Resilience Framework	Defense against digital disruption. ²²
Independent Audit	PwC ABAS	Financial data verification. ⁹
ESG Oversight	Governance & Sustainability Committee	Strategic ESG direction. ⁷
PDPA Compliance	Formally Integrated	Protecting customer data rights. ²²

External Ratings and Benchmarking Analysis

Major Cineplex Group's ESG performance is validated by several prominent rating agencies, providing a standardized measure of its risk management capabilities relative to industry peers.²

MSCI ESG Ratings: Global Leadership

In 2024, MSCI ESG Research upgraded Major Cineplex to an "AA" rating.⁷ This rating classifies the company as an "industry leader" in managing the most significant ESG risks and opportunities.²⁵ In the global media context, an AA rating suggests that Major Cineplex outperforms the majority of its international peers in areas such as corporate governance, carbon emissions management, and human capital development.⁷

SET ESG Ratings: Domestic Excellence

Within Thailand, the company is listed on the "SET ESG Ratings" with an "AAA" status—the highest possible score on the exchange's factsheet as of early 2026.² This follows several years of being recognized as a sustainable stock in the Thailand Sustainability Investment (THSI) list.¹¹ The move from THSI to the "SET ESG Ratings" reflects the exchange's commitment to more quantitative and granular assessments.¹⁸

Morningstar Sustainalytics and S&P Global

While detailed current scores from Sustainalytics and S&P Global for Major Cineplex are often proprietary, historical analyst reports from KGI and Maybank identify the company as having a "low/medium ESG risk" profile.²⁸ The Sustainalytics framework specifically measures the "unmanaged risk" of a company, and Major Cineplex's inclusion in various ASEAN-6 ESG studies suggests that it effectively manages its exposure to material ESG issues.²⁶

Agency	Rating / Status	Period	Context
MSCI ESG Research	AA	2024	Global leader tier for Media & Entertainment. ⁷
SET ESG Ratings	AAA	2025/2026	Top tier in Thailand for sustainable stocks. ²
THSI	Included	2020-2022	Recognized for 3 consecutive years. ¹¹
Thai IOD	5-Star	2022-2023	Excellent corporate governance standard. ⁷
CAC Thailand	Certified	2021-2024	Valid anti-corruption compliance. ¹²

Financial Integration: The Economic Logic of Sustainability

A sophisticated analysis of Major Cineplex Group must consider the integration of ESG into its financial performance and long-term valuation.⁵

The "Tollywood" Strategic Hedge

Major Cineplex's focus on the Thai film industry (Tollywood) is a strategic ESG initiative that addresses both social (cultural preservation) and governance (supply chain risk) factors.⁷ By targeting a 50% market share for Thai films, the company reduces its financial sensitivity to the release schedules of Hollywood blockbusters.⁵ In 4Q23 and 2024, the company observed that while Hollywood supply was limited, local successes like "Tee-yod" drove significant theater attendance and concession margins, which typically reach 60–65%.⁵

Operational Efficiency and Debt Management

The company's environmental initiatives, such as solar energy and laser projectors, directly contribute to the "margin enhancement" goals mentioned in quarterly presentations.⁹ By reducing electricity costs—a major operational expense for cinemas—the company improves its EBITDA margins.³² Despite a reduction in equity due to share repurchases, the company

maintains a manageable net debt-to-equity ratio of 0.55x, demonstrating a prudent approach to financial risk that aligns with its high governance ratings.⁵

Dividend Stability and Investor Confidence

The integration of ESG practices has helped Major Cineplex maintain high-quality earnings, which supports a consistent dividend payout.¹⁵ Even during the post-pandemic recovery, the company targeted a dividend payout ratio of over 90%, reflecting a commitment to shareholder value that is bolstered by its transparent ESG reporting.⁹

Financial Metric	Performance (2023-2024)	Impact of ESG / Strategy
Revenue (2023)	8,551 million Baht ⁵	Recovery driven by movie content strategy.
Net Profit (2023)	1,042 million Baht ⁵	High-quality earnings from core operations.
Concession Margin	62–67% ³²	Key profit driver; linked to guest counts.
Net D/E Ratio	0.55x ³²	Prudent leverage management.
Dividend Payout	~90% ¹⁵	Returns supported by governance stability.
ROE	13.2% ³¹	Reflects capital efficiency in entertainment.

Reference Table and Credibility Assessment

The following table categorizes the primary and secondary sources used in this analysis, providing a credibility score based on authority, transparency, and recency.

#	Reference (APA 7th edition)	Source Type	Score (0-10)	Justification	Relevance

	format)				
1	Major Cineplex Group PCL. (2024). <i>Form 56-1 One Report 2023.</i>	Primary	10	Official regulatory filing; audited.	Full ID, Governance, Financials.
2	Major Cineplex Group PCL. (2023). <i>Sustainable Development Report 2022.</i>	Primary	9	Detailed ESG disclosure; GRI-aligned.	Environment, Social, GRI Index.
3	Stock Exchange of Thailand. (2026). <i>MAJOR Factsheet.</i>	Primary	10	Official stock exchange data.	Current Ratings, Sector ID.
4	MSCI ESG Research. (2024). <i>ESG Ratings Search Tool.</i>	Secondary	8	Independent global rating agency.	Benchmark, MSCI AA rating.
5	PwC Thailand. (2019). <i>Independent</i>	Primary	10	External professional verification.	Audit quality, Auditor names.

Transparency and Limitations

The findings in this report are based on data available as of the knowledge cutoff date of March 2026.² However, several limitations must be noted to provide a transparent assessment:

Data Verification Limitations

While Major Cineplex Group provides extensive data through its Sustainable Development

Reports, these reports explicitly state that they do not currently undergo external assurance for the non-financial sections.¹⁷ Consequently, data regarding carbon emissions (Scope 1 and 2) and social impact metrics are self-reported by the company. While they follow the GRI 102 framework, the lack of a third-party audit for the SD Report specifically distinguishes it from the financial reports audited by PwC.⁹

Paywalled and Proprietary Information

Detailed analyst reports and granular score changes from global agencies like Morningstar Sustainalytics or S&P Global ESG Scores often reside behind premium financial terminals.³³ This report utilizes publicly available ratings (e.g., MSCI "AA" and SET "AAA") and summaries provided in analyst research notes from KGI and Maybank.⁵

Verified vs. Unverified Claims

Claims regarding the environmental impact of 5G DCP delivery and recycled uniforms are categorized as "Verified Facts" as they are documented in both official IR presentations and reputable news interviews with company executives.¹³ However, the long-term goal of reaching 1,000 screens by 2020 was impacted by the pandemic, and while the company is currently on a recovery path, future expansion targets are subject to market conditions.⁹

Independent Verification Recommendations

For independent verification of the information provided, stakeholders are encouraged to visit:

1. **The Stock Exchange of Thailand (SET):** For the most recent SET ESG Ratings and regulatory announcements (set.or.th).
2. **Major Cineplex Investor Relations:** For original PDF versions of the One Report and Sustainable Development Report (investor.majorcineplex.com).
3. **MSCI ESG Search Tool:** To verify the current MSCI rating and potential change logs for the company.

Summary Conclusions on ESG Performance

Major Cineplex Group Public Company Limited demonstrates a high degree of ESG integration that is rare in the Southeast Asian entertainment sector. The company has successfully evolved its reporting from a philanthropic CSR model to a sophisticated ESG strategy that is deeply intertwined with its business operations and risk management. The "Green Cinema" initiative and the "Tollywood" content strategy are standout examples of how sustainability can drive both environmental benefits and financial resilience.

With top-tier ratings from MSCI (AA) and SET (AAA), the company represents a benchmark for governance and transparency in Thailand. While the absence of third-party assurance for sustainability data remains a point for future improvement, the existing disclosures provide a comprehensive and credible view of a company committed to sustainable growth. As the

company continues to expand into the CLMV region, its established ESG framework will likely serve as a critical asset in navigating diverse regulatory environments and attracting international institutional capital.
